Dr. Babasaheb Ambedkar Open University
Term End Examination July – 2018

Course	:	**BBA/BBAIB**	**Date**	:	**21-07-2018**
Subject Code	:	**BBA-OLD-104/BBAIB-104**	**Time**	:	**03:00pm to 06:00pm**
Subject Name	:	**Computer Application**	**Duration**	:	**03 Hours**
			Max. Marks	:	**70**

Section A

Answer the following (Attempt any three) **(30)**

1. Explain the Programming Languages.
2. Explain the Types of Operating System.
3. Explain the Starting Microsoft WORD.
4. Explain the interpreters.
5. What do you mean by text editor?

Section B

Answer the following (Attempt any four) **(20)**

1. Explain the Basic Computer Organization.
2. Explain the Functions of an Operating System.
3. Discuss the Data Processing Concepts.
4. What are the steps to create a new slide in PowerPoint?
5. Explain the Communication Media.
6. Discuss the Desirable Features for a Multimedia System.

Section C

Part – A (Multiple Choice Questions) **(10)**

1 The time required to complete a single, continuous execution of an object program is called

A Run time B Access time
C Random time D Response time

2 Diagnostic routines is a

A Programs used to print error messages B Indicates system problems and improper program instructions
C Both A & B are true D None of these

3 A storage devices where the access time is effectively independent of the location of the data is referred as

A Direct access B Secondary storage
C Primary storage D None of these

4 A CPU designed specifically to handle the communications processing task with main purpose is to off-load communications processing task from the host computer so that the host computer can be dedicated for applications and data processing jobs.

A Backend processor B Front-end processor
C Node processor D None of these

5 Anonymous FTP is the

A Internet file transfer protocol
B Protocol that requires password
C Both (a) & (b)
D None of these

6 A storage device or medium where the access time is dependent upon the location of the data is called

A Serial access
B Parallel access
C Null access
D None of these

7 SNOBOL is

A string oriented symbolic language
B high-level language
C both A & B
D None of these

8 Which of the following is not true of a magnetic disk?

A Users can update records by writing over the old data
B It provides sequential access to stored data
C It is slow relative to magnetic tape
D All of the above are true

9 Following is true for the digital computer

A Information is in form of a string of binary digits
B It can be used as analog processor
C It is less accurate than the analog computer
D None of these.

10 Following is not the form of secondary storage

A Magnetic tape
B CDs
C Scanner
D Hard disk

Part – B (Do as Directed) (10)

1 Discuss the Advantages of Computers.
2 Write down the steps to create a title slide?
3 Write a full form of LAN.
4 What is Multimedia?
5 Write an Applications of Multimedia.
6 Write a full form of IS.
7 What is the use of data processing activities?
8 What is Data Processing Cycle?
9 Write a full form of APM.
10 Discuss the Preview and Print Documents.
